About the Influenza Specialist Group (ISG)

The Influenza Specialist Group (ISG) consists of medical and scientific specialists from around Australia and New Zealand with an interest in influenza and other infectious respiratory diseases.

Mission

- Increase understanding of the impact of influenza and its relationships to other infectious respiratory diseases.
- Reduce the public health impact of influenza through increased awareness among consumers and healthcare professionals and of best practice in the prevention and treatment of influenza.
- Based on scientific studies and available evidence, influence Australian policy development in the area of respiratory diseases.

Annual Scientific Meeting

Each year, the ISG commences its program of activities with the Annual Scientific Meeting (ASM), held in Melbourne at the beginning of February. Attendees include members of the scientific and medical community, government health officials, pharmaceutical industry representatives, academics, and delegates from other health related NGO's.

Sponsorship & Support

The ISG is able to carry out its important work thanks to the generosity of its sponsors and in-kind supporters. Regardless of the source of sponsorship or support, full control over all of the ISG's activities and published materials is ensured through its Board of Directors.
